Scope of this document

Every module from Section 9 of the proposal, with its screens, dialogs, forms, menus, empty states, error states and confirmation messages, for the Visitor, Pet, Human and Admin roles.

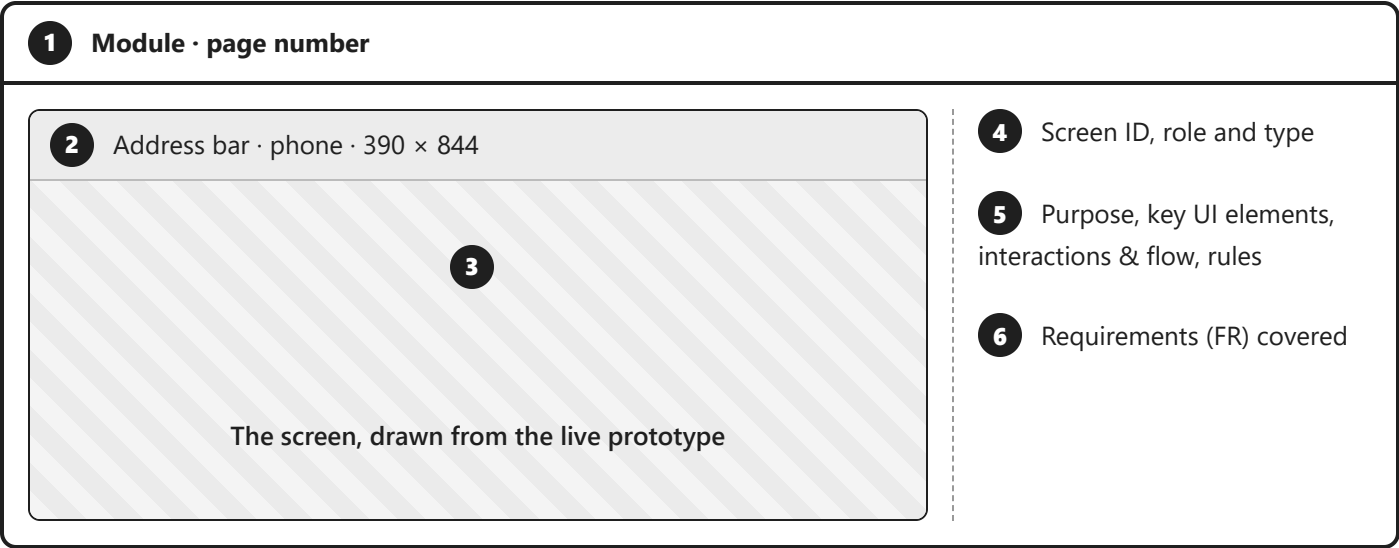

Small-screen (phone) layouts only, drawn at 390 × 844. Long pages are shown as a row of phone screens, top to bottom, left to right. Each page shows the real clickable prototype, so the PDF and the prototype always match.

How to read this document

ANATOMY OF A SCREEN PAGE

1. The section and page number. Links in the contents and indexes jump to pages.
2. The address the screen lives at. Every screen is shown in a phone (390 × 844) frame.
3. The wireframe. Grayscale on purpose: it shows layout, content and flow — not colours or branding.
4. What the screen is and who sees it. Types: Screen, Dialog, Drawer, Dropdown, Toast, State, Empty state, Error state.
5. Arrows (→) name the screen or dialog an action leads to, by ID.
6. Functional requirements from Section 7 of the proposal that the screen fulfils.

CAPTURE TYPES

Full page — the whole page, cut into phone-screen-sized pieces shown side by side (“Screen 1 of 4 · top of page”, then scrolled down). Pages longer than three screens continue on the next sheet.

Viewport — exactly what fits on one 390 × 844 phone screen. Used for dialogs, menus, toasts and states, which appear on top of the page behind them.

The image shows a mobile app login screen for 'Pawfolio'. At the top, the status bar shows 9:41 and the URL pawfolio.app/login. The app header includes the Pawfolio logo, a 'Join now' link, and a 'Sign in' button. The main content area is titled 'Sign in' with a welcome message: 'Welcome back! Pets, humans and admins all sign in here.' Below this is an error message in a grey box: 'That email and password don't match. Try again or reset your password. After 5 failed tries, sign-in is paused for 15 minutes.' The form fields for 'Email' and 'Password' are shown, with the email field containing 'ana.santos@email.com' and the password field masked with dots. Below the fields are checkboxes for 'Keep me signed in' and a link for 'Forgot password?'. A large 'Sign in' button is at the bottom of the form, and a link 'New to Pawfolio? Join now' is at the very bottom.

Non-functional requirements (Section 8) — how the UI supports them

ID	Quality	In these designs	Where
NFR1	Usability	Long forms are wizards with a progress indicator.	AU-08–17 · PR-03–08 · PR-14–19
NFR2	Security	Blocked accounts get status screens only; navigation differs per role.	AU-18–21 · GN-01 · AN-03
NFR3	Data integrity	Actions appear only when the rules allow them; no status dropdown.	MG-03 · MG-11 · RQ-05 · RQ-06 · PR-01
NFR4	Privacy	City-only Home Profiles; contacts unlocked after confirmation; documents admin-only.	DS-07 · MG-07 · AU-23
NFR5	Availability	Not a UI concern — hosting and deployment.	—
NFR6	Scalability	Screens leave room for shelter accounts and messaging (future scope).	—
NFR7	Performance	Images compressed on upload; long lists are paginated.	PR-09 · DS-01
NFR8	Compatibility	This document shows the phone layouts; the desktop edition shows the same screens at 1440 × 900.	All
NFR9	Accountability	Admin actions require a reason and are logged.	AU-25 · AC-08 · AL-08 · RP-05 · LG-03–04
